Borrow Money for 40 Years and Buy that Other Farm Now

THAT adjoining 40 or 60 acres of land that you have been wanting can be yours at once under our new Government plan of making farm loans for 40 years.

The expense and hazards of 5-year loans have been such that you have hesitated to buy additional farm property, farm equipment or make needed improvements. But now, we offer you a safe, sure and easy way to do these things.

Under Government sanction, our joint stock land bank is lending money on Indiana and Illinois farms for 40-year periods. This long period protects you against the expense and risk of renewals incident to loans of 5 years or less.

The borrower will pay \$66.46 annually for each \$1,000 he borrows, the interest rate being 6%.

This annual payment includes interest and such sum for application on the principal that the entire loan will be paid off at the end of the 40 years.

After five years from the date of the loan additional payments for the reduction or extinguishment of the principal debt may be made on any installment date.

Applications will be given prompt attention, and if the loan is accepted you will get the money in the shortest possible time.

We are ready to receive applications for and make loans of this character through the Fletcher Joint Stock Land Bank, which is the only one in Indiana. We will be glad to have your application, or to consult with you and furnish any other information that may be desired. Call and see us.

LAXATIVE for Aged People

THE BANE of old age is constipation. The bowels become weak and unable to perform their functions without aid. For this purpose only the mildest and gentlest laxative should be used. The use of harsh cathartics aggravates the trouble and makes the constipation worse. Chamberlain's Tablets are a favorite with people of middle age and older on account of their gentle action.

Don't Let Worms Kill Your Hogs

The fact that your hogs or sheep are in pasture and apparently free of worms today is no proof that they will not be loaded with worms a week from now, therefore WORMS ARE PESTS which must be fought continuously and feeding ACME WORM BOUNCER from birth to maturity to your pigs and your lambs, prevents indigestion, prevents fermentation of the food, PREVENTS WORMS from breeding, prevents constipation, keeps your animals on a full and even appetite, and ALWAYS THRIVING and PREVENTS 90% of DISEASE. Saves feed—STOPS LOSSES.

FREE intestinal and stomach worms are those that do not attach themselves to the intestine or stomach. Worms which attach themselves to the stomach or intestines are properly called "blood suckers" and nothing will expel the "blood sucking worm" after they are formed.

The Thorn Headed Worm is a "blood sucker" and nothing will expel them after they are formed. They have a mass of thorns or hooks about the head and not only attach themselves to the intestines but bury the head into and clear through the intestines. The THORN HEADED WORM can be positively prevented by feeding ACME WORM BOUNCER from birth to maturity.

The Wisconsin Agricultural College, Veterinary Department, in Poster Bulletin No. 3, July 1914, says: "Serum will not give good results if worms, indigestion and other diseases are present." This tells you that when your hogs are vaccinated, that you need ACME WORM BOUNCER just the same, in fact more, for you have spent on your hogs 50 to 75 cents per head more than the man who has not vaccinated.

Prof. McLaughlin of the University of Chicago and other American historical writers have of late expressed the opinion that American school histories are in need of revision in so far as they discuss the relations between the United States and Great Britain from 1776 down to recent times. This suggestion seems worthy of serious consideration in view of the actual present and probable future relations of the two countries. Perhaps our school histories are more at fault in what they omit than in what they assert. We had perfectly good reasons both for fighting to gain our independence in the first place and for going to war with Great Britain in 1812, as our school histories show, but what they fail to show is that in both cases our quarrel was not with the most enlightened English statesmen or the masses of the English people but with the government misrepresenting them, a government that in the first instance was dominated by a German king.

Our school histories ought to make it clear further that this is not the first but really the third time that England and America have stood together against the menace of an aggressive autocracy and militarism in continental Europe. The first alliance of this sort was made a fact in all true essentials when, in 1803, Prime Minister Addington, speaking for the British government and nation, offered to seize and hold New Orleans "for the United States" which offer, with the power of the sea-ruling British fleet behind it, checked Napoleon Bonaparte's scheme of vast empire in North America and induced him to hearken to President Jefferson's proposal to purchase the great Louisiana territory the French conqueror had planned to extend. This friendly offer from the mother country followed a conference through our minister at London inspired by Jefferson as soon as he had certain assurance that Napoleonic ambition threatened even the new world.

A second understanding of a similar sort was reached in 1823 under a new menace from autocracy and militarism in continental Europe in the form of the so-called Holy Alliance. It was then that Premier Canning proposed and offered to

I Had Nervous Breakdown Now Own My Present Health and Strength to Vinol

Burdett, N. Y.—"I keep house for my family of three, and raise chickens. I had a nervous breakdown, so I was unable to work. The doctor did not seem to help me, and a cousin asked me to try Vinol. It built me up—I now have a good appetite and am well and strong."—Mrs. Loyal Palmer.

There is no secret about Vinol. It owes its success to beef and cod liver peptones, iron and manganese peptones and glycerophosphates, the oldest and most famous body-building and strength creating tonics.

Hand-to-hand encounters between British and Turks at Dardanelles result in heavy losses for both sides.

support the principle since known as the Monroe Doctrine, the initiative being thus taken in England and an understanding between the two kindred nations reached before President Monroe boldly announced the celebrated "doctrine" warning European land-grabbers not to seek territorial aggrandizement in the western hemisphere. Such illuminating facts as these ought to receive mention in our school histories and it should be made clear that, although our two wars with England were for good cause, the heart and conscience of the British people, backed by the power of their fleet, supported us whenever in the earlier times we were threatened by military autocracy in continental Europe.

To Protect Bond Holders

In recognition of the reports that have come to the state Council of Defense to the effect that promoters of "wild cat" stock companies have been "preying" upon holders of thrift stamps and Liberty bonds exchanging "blue-sky stock" of doubtful value for federal securities, the council at its meeting July 3rd adopted a resolution asking banks and trust companies to advertise the danger that exists of fraud. The resolution also urges that bankers give their assistance to the campaign of publicity and education that is intended to drive the grafters out of the state. Warnings will be issued against the purchase of any stocks or bonds, particularly those in oil and mining companies, without the advice of some local banker or which have not been approved by the War Issue committee of the United States Treasury department.

Credit Enough For All

"I have lived both in Germany and the United States and I believe that America alone could beat the Germans," Lord Northcliffe thus informs the Petit Parisien; and his flattering words will be appreciated over here. But we hope that it will never fall to the United States to have to beat the Germans without assistance. Our allies who have thus far kept up the warfare against the Hun are not yet bled white and they will hold the line till we can adequately reinforce them; and then, all together, the Allied armies will cross the Rhine. That we shall make the largest contribution to the final campaigns of the war is undoubted. That we shall be entitled to much credit of having produced victory will be the verdict of history. But there will be glory enough for all; and luckily Lord Northcliffe's belief will not have to be put to the test.

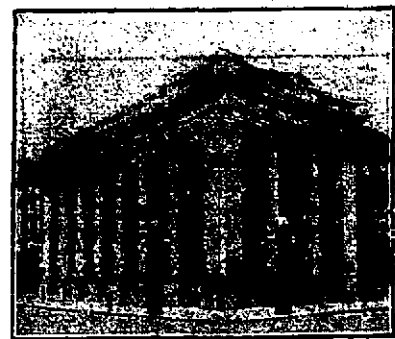

In passing the fortifications appropriations bill, carrying more than five billion dollars, after only about five hours of debate, the House of Representatives, as Mr. Fess of Ohio computed and declared it, voted money at the rate of a billion and a quarter an hour, \$18,000,000 a minute, \$300,000 a second. And yet there are those who condemn Congress wholesale for wasting time.

What Is a War Savings Certificate?

A War Savings Certificate is better than dollar bills. No matter how long you keep dollar bills in your pocket, they are worth their original value only. But a War Savings Certificate **INCREASES** in Dollar Value.

When the Certificate is filled you have 20 War Stamps, bought at your convenience, for a total now of \$83.60. At the end of five years the Government redeems each full certificate for exactly \$100.00.

You obtain over \$16.00 interest for lending your money. You do not miss the money you subscribe, for you loan it at odd times to suit your convenience. Could anything be fairer? Especially when every dollar you lend helps shorten the War.

We offer you every facility for the purchase of War Savings Certificates and every class of War Loan Investment.

Dowagiac Steerable One-Horse Disc

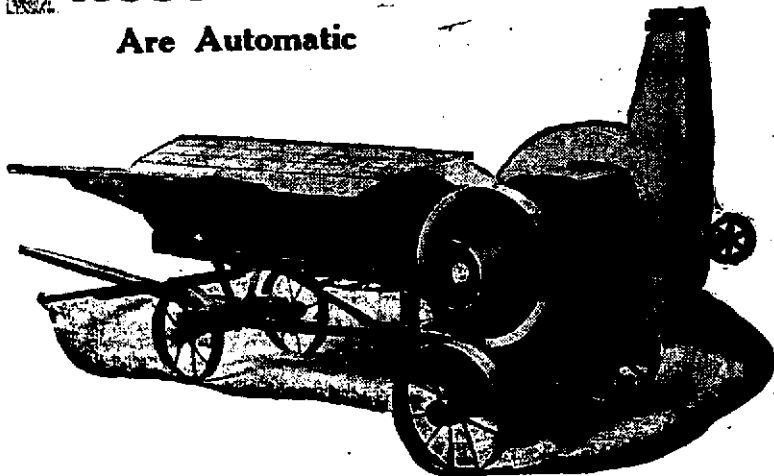

The Dowagiac is in a class by itself, in advance of all other one-horse drills, because it is easily guided. The front wheel is a caster wheel permitting a short turn without lifting the drill and making steering between crooked rows easy. The Dowagiac five disc is self-guiding. It trails so perfectly that when the horse is driven midway between the corn rows the driver need not touch the handles and at the ends of rows the drill follows the horse in making the short turn.

WATSON CHEERED IN FOURTH SPEECH

Delivers Patriotic Address at Celebration Held at Glen Miller Park in Richmond

ALLUSION TO HIS CANDIDACY

Chairman of Council of Defense Says Wayne Will Support Him For Greater Honors

Senator James E. Watson and Richard Leiber spoke at the Fourth of July celebration, which was attended by many Rush county people at Richmond yesterday. The event was held in Glen Miller park and was attended by a crowd of more than five thousand persons.

A dispatch from Richmond today says that when Will Reller, chairman of the Wayne County Council of Defense, introduced Senator Watson, he said that all Wayne county supported the senator. The dispatch continued:

"There was," said the senator when he began his speech, "a time that all Wayne county was not for me and when it could not be said in truth that every one was for me." The crowd laughed and applauded at the sally, for Wayne county fought Watson bitterly during the progressive movement in 1912. Mr. Reller's statement that Wayne county would support Watson "for still greater honors," was interpreted as an allusion to a probable candidacy of Watson for the republican nomination for president. Mayor Zimmerman led the demonstration that followed Reller's suggestion.

After reviewing the causes that led to America's entrance into the war, Senator Watson said:

"I am back of Woodrow Wilson as president of the United States as leader of the people and as commander-in-chief of the army and navy. I voted for war with Germany and I am proud of it. I did not vote for war so that America might dictate what form of government Germany should have, for that would violate the very principle of democracy for which we are fighting. Germany is entitled to any kind of government she wants free of our dictation.

"I am behind President Wilson in all matters pertaining to finance, commerce and industry. I shall use my own judgment as to how far I will give him power. He can use only so much as congress gives him. I want to win this war and whip the other fellow in politics after the war is over. If we don't whip him now, then our politics will make little difference.

Senator Watson declared that Bismarck's policy of blood and iron led to the methods used by the Kaiser. Bismarck believed in education so that the Germanic doctrine of the Hohenzollern house would be so thoroughly drilled into the minds of the people that they would become willing tools in the hands of the reigning house. "Every individual," he said, "was to be made so highly efficient that he would be of great benefit to the autocracy. In the United States we educate the individual so that he will be of the greatest benefit to himself and not to the state."

Manilla Methodist: Bible School 9:30 a. m.; preaching by the pastor at 10:30 a. m., subject, "Our Missions, When, Where, What?" Young peoples' meeting 7:30 p. m.; at 8:30 p. m. the pastor will use stereoscopic pictures from "The Passion Play" to illustrate recent Bible school lessons.

At St. Mary's Catholic church the hours for the Sunday morning service will change for the summer months. Masses will be read at seven and nine o'clock instead of eight and ten, as formerly observed.

Pleasant Ridge Methodist: Bible school 2:00 p. m.; preaching by the pastor, 3:00 p. m.; subject, "How Far We Have Obeyed." Epworth League every Tuesday evening.

The services for the United Presbyterian church at Glenwood will be Sunday school at 1:30 and preaching at 2:15.

TO ERECT MEMORIAL TO JULIA V. STRAUSS

Womans Press Club Begins Plans For the Erection of the Monument to Hoosier Woman

TO BE PLACED IN STATE PARK

(By United Press.)

Indianapolis, Ind., July 5.—Plans of Indiana women to erect a memorial to Juliet V. Strauss, one of the state's leading writers, are advancing rapidly. The Indiana Woman's Press club has charge of collecting funds for the memorial to the noted writer.

The chairman of the committee of the Press club in charge of the work is Mrs. Blanche Foster Boruff of Bedford.

The memorial will probably be erected in the state park at Turkey Run. Mrs. Strauss was one of the most ardent workers in the state to have the beauty spot preserved.

A log cabin is now being erected at the park to typify the pioneer days in the state and it is probable that the memorial will be erected in the cabin.

LIMITS ICE CREAM TO THREE FLAVORS

Vanilla, Strawberry and Chocolate Are Only Ones Allowed by Food Administration

MANUFACTURERS BIND SELVES

Vanilla, strawberry and chocolate will constitute the ice cream menu of the patriotic ice cream manufacturer in Indiana for the remainder of the season.

As a result of the action of the Indiana Manufacturers of Dairy products, appreciating the necessity for a reduction of the use of sugar in their products, binding themselves by resolution to produce only the three brands of ice cream, Dr. Harry E. Barnard, federal food administrator for Indiana, today issued directions to county food administrators and their assistants to see to it that no other flavoring is used in ice cream, either in confectioneries or soda fountains.

The penalty for failing to abide by this ruling is that the offender be deprived of any further sugar supply or a supply of products containing sugar, for the period of the war.

Dr. Barnard is well pleased with the action of the dairy products manufacturers, both on account of the enormous saving it will effect, and because of the manifestation of appreciation, which he says must spread to every other line of sugar consumers, and call forth an equal willingness to sacrifice if there is to be no serious sugar famine at a time when the important need of sugar is most pronounced.

MUST SPRAY ORCHARDS TO ELIMINATE MOTHS

Wormy Apples Caused by Present Brood of Insects For Which Poison Must be Applied.

AN EFFECTIVE APPLICATION

Rush county farmers who wish to preserve their apple orchards so that apples will be safe to eat in the dark, are warned against the second brood of codling moth which are here and all ready for business. The wormy apples found at picking time are caused by this brood and in order to control these insects it is necessary that the poison be applied at the proper time.

A careful observation is being made in the different sections of the county to determine the exact time of this brood and they are now known to be active in this vicinity. The spraying to be most effective, must be done before July 8th, covering the fruit thoroughly with the poison before the eggs hatch.

For an effective application a pound of dry arsenate of lead or two pounds of paste should be used, in a fifty gallon of lime-sulphur solution. The test usually requires about one and one-half gallons of commercial lime-sulphur to fifty gallons of water. Where apple blotch is troublesome, Bordeaux mixture plus the arsenate of lead is to be preferred to the lime-sulphur spray.

Conducted the services at the Methodist church Sunday afternoon.

THIRTY BUSHELS IS GOAL FOR THRESHERS

Threshermen's Record Books, Are Being Distributed For Tabulation of Important Records

IN THIRTY BUSHEL CLUB

To be placed in the "thirty bushel club" is the goal for which the fifty-two threshers in Rush county are striving in connection with their threshing program, which is being worked out in the county during these weeks.

The thresherman's record books have been received by Marion Detrick for distribution among the farmers who are expected to record the number of acres threshed, the kind of grain produced, the bushels threshed, the variety and the amount sold and to report on these notes to the county agent in order that he might have references for the wheat sales during the coming months.

The names of every farmer who threshers thirty bushels of wheat or more to an acre will be kept on a patriotic record, at the request of the government. An accurate account of the kinds of grain thresh-

ed is desired for the report in order that there will be less difficulty in obtaining seed this year than on former occasions.

The threshing season will open with a boom next week in every part of the county. Meetings of threshers which were held throughout the county this week disclosed the fact that none of the wheat was in good enough condition to be threshed and unless the excess moisture was allowed to evaporate, the crop would not reach the size which is desired by food authorities.

AGE NO BAR

Everybody in Rushville is Eligible.

Old people stooped with suffering.
Middle age, courageously fighting.
Youth protesting impatiently.
Children, unable to explain.
All in misery from their kidneys.
Perhaps a little backache first.
Urinary disorders, dropsy may quickly follow.

Doan's Kidney Pills are for weak kidneys.

Are endorsed by thousands.
Here's Rushville testimony.

A. M. Younger, retired farmer, 828 W. Tenth St., says: "I have been using Doan's Kidney Pills off and on for about ten years and they have done me good. When a man gets as old as I, he is apt to have more or less trouble with his kidneys. At times, I have had a dull ache across the small of my back and my back has been weak and lame. Then the kidney secretions have been too frequent in passages, making me get up at night. Every time I have been that way, I have bought a box of Doan's Kidney Pills at Johnson's Drug Store, and they have never failed to relieve me in a short time."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Younger had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.—(Adv.)

DR. F. A. FINLAW IS CALLED TO COLORS

Arlington Physician, Eighth From County to Enlist, Ordered to Report July 15

GOES TO FT. OGLETHORPE, GA.

With the notification to report at Ft. Oglethorpe, Ga., July 15, for service in the medical department of the United States army, Dr. Fred A. Finlaw of Arlington is the eighth Rush county physician to enlist for active service.

Dr. Finlaw who has been commissioned first lieutenant, enlisted several weeks ago but did not receive his call for service until yesterday. That Rush county's response to the call for physicians has been unusually large, is indicated in the number of physicians who have answered the enlistment call. One of the physicians, however, has not been called up to the present time and two have been honorably discharged. Dr. Finlaw has practiced medicine in Arlington for some time, going to that place from New Jersey where he had resided.

AGED DOCTOR IS ATTACKED

Former Connorsville Man Robbed, But Thieves Are Caught

(By United Press.)

Indianapolis, Ind., July 5.—Dr. J. D. Oranhood, 63, was attacked in his drug store here today and robbed by two men. They were later captured by the police and admitted their guilt. They gave their names as Albert Webb and Kyle Burris. The aged man was struck over the head with a stocking filled with lead. Although staggered by the blow, he attempted to defend himself but was overpowered. The men procured a little money and fled but were overtaken. Dr. Oranhood was a physician in Connorsville and for many years before coming to Indianapolis, operated a drugstore. He is suffering from numerous scalp wounds but will recover.

"We have good food and most comfortable quarters with plenty of exercise after working hours. Each unit has its own baseball team and a great amount of rivalry exists among them. Most of the officers here are young fellows and the usual numbers of pranks, practical jokes and rough-houses are pulled off in the quarters at the most unheard of hoats.

Some of the English expressions are very queer, many of them, are however, quite to the point. For instance, 'Carry on' has the same meaning as the American expression, go a-head. 'Right-O' means sure or certainly. The inflection of the English voice is also foreign to the American soldiers whose quick sentences which are brought out with a snap, are noticeably different from the more deliberate manner which the Englishman adopts."
